SAMPLE — REAL PUBLIC LISTINGS, NAMES REDACTED · NOT A CLIENT DELIVERABLE

Supplier monitoring — monthly note ($149/month format)

Up to 3 suppliers · Sent by email on the same date each month · This sample: baseline and re-check on 23 Nov 2026 (KST)

> **About this sample.** The three suppliers are real public Made-in-China.com listings, read on 23 Nov 2026 at about 15:12 KST and re-read at about 17:50 KST. Names and links are withheld. A real month compares two snapshots about 30 days apart; this sample shows the same table with a same-day re-check, so every row reads NO CHANGE. Nothing here is a client's data.

1. This month at a glance

2. What we check every month

1. Listing and company profile still live; company name unchanged across profile, listing and audit page.
2. Public price band and MOQ for your item — a drop of more than 15% or an MOQ change is flagged with the old and new figures.
3. Third-party audit reference still shown, and its date.
4. Business licence status on gsxt.gov.cn (needs the USCC, which you give us once).
5. New court judgments or enforcement records (wenshu.court.gov.cn, zxgk.court.gov.cn) by company name and USCC.
6. Any change in the bank beneficiary on a new PI you forward to us.

3. What triggers an alert email the same day

- Licence status changes from active (存续/在业) to anything else.
- A new enforcement or dishonest-debtor record.
- A PI beneficiary that differs from the registered company.

4. Guarantee and limits

- If a month's note is not sent by its date, that month is refunded (as stated on /terms).
- Paid month by month on PayPal; never auto-renewing. Stop by not paying the next month.
- Desk check of public records only. Not legal advice and not a guarantee against fraud.

Email only. No calls, WhatsApp, WeChat or video.
